

## **Clackamas & Oregon Pediatrics**

**Is upgrading its computerized health record system to improve your care!**

### While we make the change:

- Some printouts might look different
- We may ask you to fill out forms that you have completed before
  - We may ask you to re-sign electronic documents that you have signed on paper in the past
- We may temporarily have extra staff in the clinic and exam rooms

**We Appreciate your Patience during this Transition...**
